Product Description

2D bending machine, full-automatic box butt welding machine

Alias:

Bending machine, bending and butt welding machine,
bending frame + butt welding machine,
2D bending machine,
2D folding frame machine,

Product Description

All plane forming and bending shapes that need to be butted can be fully automated by this machine.

*Features

Bent frame + butt welding, it is a molding machine, can bend frame, can bend other 2D shape, all molding machine function has.

It can also be butt welded. For the products that need interface, it can directly form butt welding, which is more efficient, labor-saving and more humanized.

Taiwan water-cooled transformer, with temperature control device, is more durable and better welded.
