

Cylinder Stainless Steel Spot Welding Machine 50mm Row Welding Machine For Fence

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Jin Hongxiang
- Certification: CE
- Model Number: JD-80
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: Export safety wooden case
- Delivery Time: 5-10 working days. Or negotiation
- Supply Ability: 50 Set/Sets per Month

Product Specification

- Product Name: Spot Welder
- Applicable Industries: Building Cover Plate, Railway / Road Guardrail, Pet Cage, Storage Rack, Net Basket
- Rated Capacity: 80KVA
- Usage: Welding, Multi-point Welding
- Voltage: 380V, 50HZ
- Key Selling Points: Taiwan's Water-cooled Wet Control Transformer Will Not Be Affected By Overload
- Weight (KG): 430 KG
- Control System: Touch Electric Box Control
- Cylinder Stroke: 50MM
- Nominal Frequency: 50/60HZ
- Feature: Sufficient Power, Beautiful Welding, Firm And Fast Response
- Port: Shenzhen, China

Product Description

Spot welding machine row welding machine for fence

Spot welder application

Resistance welding has the characteristics of high production efficiency, low cost, material saving and easy automation, so it is widely used in all walks of life. Now I will list the applications of spot welding machines in various industries and the types of spot welding machines that are suitable for them.

1. Electronics industry: medium frequency inverter spot welding machines and precision spot welding machines are also widely used in the electronics industry;
 2. Automobile manufacturing industry: suitable models include mobile spot welding machine and hand-held spot welding machine;
 3. Commodity hardware: such as coffee pot, basin, kitchen sink and other industries. Suitable for girth welding machine, straight seam welding machine and roll welding machine;
 4. Jewelry industry: manufacturers of earrings, jewelry, headwear, etc., suitable for precision spot welding machines, medium frequency spot welding machines, desktop spot welding machines.
 5. Home appliance industry: such as air conditioner and water heater. Multi spot welder, backplate multi spot welder and hand-held welder are recommended;
 6. Screen industry: recommended gantry wire mesh welding machine, full brake gantry reciprocating welding machine, semi-automatic gantry welding machine, medium frequency inverter welding machine, etc;
 7. Fence industry: multi spot welding, row welding machine, circular butt welding machine and touch welding machine are recommended.
- Different spot welding machines have different performances. When selecting a spot welding machine suitable for your own industry, you should pay attention to safety and operate in a ventilated environment.

small spot welding machine,

Tooling or fixture of the machine

The spot welding machine is a row welding machine. Because of the different products, it is necessary to do some positioning tooling or fixtures for the workpiece to facilitate more suitable welding of the workpiece. These can be customized as required. The main machine remains unchanged.

Spot welding die

Product Description

Performance characteristics

1. Cylinder direct pressure mechanism, good follow-up performance, fast welding speed, combined cylinder, Taiwan AS2410 large flow solenoid valve. Taiwan AS2410 solenoid valve has strong suction and sensitive response. It is ideal for continuous row welding of mesh.

**Taiwan AS2410 large
flow solenoid valve**

**Connected large
air cylinder**

2. All red copper water cooling temperature control device of transformer has the advantages of long service life, low noise, safety and convenient use.

A. Taiwan transformer features: sufficient capacity, greater welding force and stronger conductivity.

B. Water circulation cooling, which can be used within the rated range to ensure 24 hours of operation.

C. Moreover, the temperature control device can work overload and automatically cut off power to protect the whole machine from being affected.

3. The water-saving forced cooling mode is adopted, and the main circuit adopts high-power SCR contactless switch, with high conductivity and low power loss, High temperature automatic protection.

Technical parameters:

Technical parameters:								
Model	Rated power KVA	Input voltage V	Nominal frequency HZ	Maximum short circuit current A	arm length mm	electrode travel MM	Cooling water volume	Weight KG
JD-60	60	380	50/60	22000	600	50	10	350
JD-80	80	380	50/60	28000	600	50	10	400
JD-100	100	380	50/60	30000	600	50	10	430
JD-120	120	380	50/60	32000	600	50	12	460
JD-150	150	380	50/60	34000	600	50	12	500
JDX-35	35	380	50/60	15000	400	50	/	197
JDX-50	50	380	50/60	20000	400	50	/	248

For row welding and fence welding, multiple spot welding machines can be used at one time. We have high standards. Our advantages are more obvious, row welding speed is faster, reaction speed is more than 30% higher than that of the same industry, and the welding effect is more beautiful and firm.
