

Small Pneumatic Spot Weld Machine 35KVA Customized For Thin Plates

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Jin Hongxiang
- Certification: CE
- Model Number: JD-35
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: Export safety wooden case
- Delivery Time: 5-10 working days. Or negotiation
- Supply Ability: 50 Set/Sets per Month

Product Specification

- Product Name: Spot Welder
- Applicable Industries: Building Cover Plate, Railway / Road Guardrail, Pet Cage, Storage Rack, Net Basket
- Rated Capacity: 35KVA
- Usage: Spot Welding
- Voltage: 380V, 50HZ
- Key Selling Points: Electric Control Panel
- Weight (KG): 200 KG
- Control System: Electric Control Panel
- Cylinder Stroke: 50MM
- Nominal Frequency: 50/60HZ
- Feature: Sufficient Power, Beautiful Welding, Firm And Fast Response
- Port: Shenzhen, China
- Highlight: **Pneumatic Spot Weld Machine,**

Product Description

Small pneumatic spot welder For welding of thin plates

summary

Small pneumatic spot welding machine is mainly spot welding, which is easier and more stable than foot type spot welding machine. Welding small parts is more dexterous and economical than large air pressure spot welding machine. It is more suitable for welding Bo board, diamond mesh, thin wire and shrapnel. Quick welding is possible. Real materials, keep improving. Customer satisfaction.

Maximum characteristics

It can be used in any place where 35KVA spot welder can weld. Especially for welding diamond mesh and iron mesh, it can be set continuously, and can be welded automatically and quickly. It can be welded more than 5 times in 1 second, which is very fast.

Name:

JDX-35 / 50 fast spot welder, air pressure spot welder, touch welder, pneumatic spot welder, diamond dot welder, garbage basket fast spot welder

Spot welding machine,
touch welding machine,

Performance characteristics

1. The cylinder can be adjustable or non adjustable according to the needs of the product. The lower arm can be fixed or moved left and right. All for the convenience of customers.
2. Mainly welding small and thin products and small workpieces. Steel structure folded plate frame, the whole machine is stable and flexible.
3. Red copper coil transformer, air-cooled, Taiwan type control box, small ignition, strong welding current and beautiful welding. Taiwan Yadeke solenoid valve has fast response and is more durable.

Detailed description

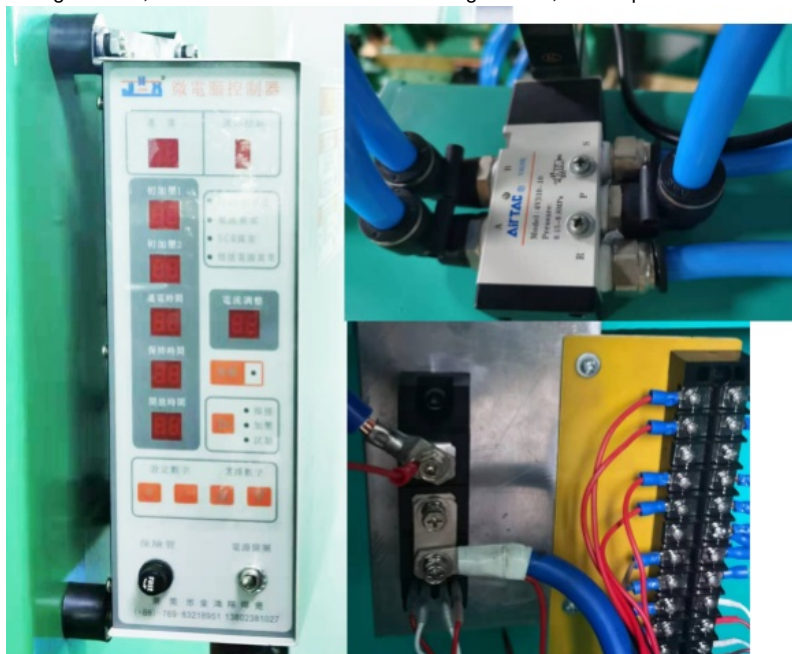

1. The lower arm can move left and right to facilitate welding of special-shaped workpieces.

2. Thickened connecting red copper strip, solid core copper conductor bar, good conductivity, more secure and stable welding.

3. Taiwan Yadeke AIRTAC solenoid valve, precision electric control box and module thyristor are better than similar configurations, with more stable and soft welding current, small spark and more beautiful welding surface.
