

Mesh Spot Welder 50-40000A $\pm 0.1\text{mm}$ Accuracy

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Jinghongxiang
- Model Number: Wide range of models
- Minimum Order Quantity: 1
- Packaging Details: Export secure packaging

Product Specification

- Control System: Electronic Numerical Control
- Welding Current: 50-40000A
- Power: 35KVA-200KVA
- Welding Time: 1-99s
- Welding Thickness: 0.5mm-3mm
- Welding Position: Any Angle
- Welding Speed: 0.1-3s
- Welding Accuracy: $\pm 0.1\text{mm}$

Product Description

Product Description:

Our customized spot welder is a special spot welder, equipped with a gantry and designed for welding 0.5mm-3mm thick materials with accuracy of $\pm 0.1\text{mm}$. It has a welding current ranging from 50-40000A, and a welding speed ranging from 0.1-3s. Our spot welder is powered by AC power supply.

Features:

Product Name: Spot Welding Machine

Welding Material: Stainless Steel/Carbon Steel/Aluminum Alloy

Welding Position: Any Angle

Welding Pressure: 0-100Kg

Welding Thickness: 0.5mm-3mm

Welding Current: 50-500A

Special Feature: Galvanized Plate Spot Welder, Battery Spot Welder, Wire Mesh Spot Welder

Technical Parameters:

Product Attribute	Value
Welding Current	50-500A
Welding Type	Spot Welding
Welding Pressure	0-100Kg
Welding Material	Stainless Steel/Carbon Steel/Aluminum Alloy
Power	35KVA-200KVA
Power Supply	AC

Control System	Electronic Numerical Control
Welding Area	100mm*100mm
Welding Voltage	380V
Welding Position	Any Angle
Spot welding machine	Yes
Multi cylinder spot welder	Yes
Wire mesh spot welder	Yes

Applications:

Jinghongxiang spot welding machines are widely used in various industrial applications, such as custom spot welding, battery spot welding, galvanized plate spot welding and welding automation. With superior welding accuracy of $\pm 0.1\text{mm}$, these spot welders provide a reliable welding performance with different power supply (AC) and cooling system (water cooling). The welding time is adjustable from 1 to 99 seconds. With a wide range of models, these spot welding machines can be easily customized to fit the specific requirements of each application.

Customization:

Customized Spot Welding Machine-----

Brand Name: Jinghongxiang
Model Number: Wide range of models
Place of Origin: Guangdong, China
Power Supply: AC
Welding Thickness: 0.5mm-3mm
Power: 35KVA-200KVA
Welding Material: Stainless Steel/Carbon Steel/Aluminum Alloy
Welding Area: 100mm*100mm

Customized Spot Welder Features

Galvanized plate spot welder
Multi cylinder spot welder
High precision and stability
Excellent performance with a long working life

Support and Services:

Technical Support and Service for Spot Welding Machine-----

We provide technical support and service for the spot welding machines to ensure that they are working properly and are meeting the customer's requirements.

We offer a wide range of services to ensure that the spot welding machine is working correctly and efficiently. These services include:

Troubleshooting and diagnosing any problems with the machine
Repairing and replacing any parts that are not functioning properly
Regular maintenance and calibration of the machine
Providing technical advice and support

We also offer a variety of training and educational services to help customers get the most out of their spot welding machine. These services include:

Training classes on how to operate and maintain the machine
Instructor-led courses on welding techniques and safety
Online tutorials and videos on the proper use of the machine

If you have any questions or concerns about the spot welding machine, please feel free to contact us and we will be happy to assist you. We look forward to helping you get the most out of your spot welding machine.
